

## DAN RAYMOND-BARKER Candidate for Town Council, elections 6 May 2021

My partner and I arrived in Taston in 2004 and then moved into Charlbury 10 years ago. We have two children who attended the primary school and are now at Chipping Norton School.

My professional background is in publishing. I was until recently a co-director of an Oxford-based media workers' co-operative. Now I have two jobs – publishing consultant and surveyor for a period homes retrofit company.

I'm a member of the Environmental Working Group set up by the Town Council. Other local voluntary work has included the Riverside Festival, the Beer Festival and the Southill Solar community share offer campaign.

If I am elected, I will use my professional and community-based experience to help develop and implement Charlbury's Climate Action Plan. I believe it will improve quality of life for everyone. My particular interests include: insulating our homes; increasing local biodiversity; social inclusion; access to real food and cycling for work & pleasure.
