

Charlbury Town Council election – Thursday 6th May

Frances Mortimer

I have been part of the Charlbury community since moving to Fawler 12 years ago, where I live with my husband and three young children. I grew up in Burford so moving back here felt like coming home.

I joined the Town Council Environment Working Group last year and my first action was to organise a popular electric bike try-out event. I love the freedom of e-bikes - in fact, if you don't already know me, you have likely seen me riding our blue e-bike with a couple of kids on the back!

I want to help make a thriving Charlbury where much more of our food is grown locally, our homes are efficient, the air and the rivers are clean, streets are safe for people of every age to get around on foot or by bike, and we are well-connected by public transport. I bring my experience as a mother, my previous work as an NHS doctor and more recently as co-founder and Medical Director of the Centre for Sustainable Healthcare.

Please vote for me on May 6th!
