

Gary Harrison

Candidate for Charlbury Town Council

In July 2019, my wife Kim and I moved to Charlbury. We are loving our new lives here and are proud to call this town our home. Thank you for taking the time to read this leaflet.

My hope is to be elected to serve this community as a town councillor. I spent 20 years as an RAF Tornado GR1 Navigator, ultimately as a Squadron Leader and deputy Officer Commanding of XV Squadron. I then worked for a large multinational company as Head of Military Training and Simulation with over 250 staff.

Since then, I have owned and developed several businesses both in the retail and real estate sectors. I am therefore confident that I can be a steady hand and work hard to deliver what Charlbury wants.

After Lung Cancer surgery 3 years ago, I successfully ran the London Marathon raising over £8000 for Cancer Research UK.

I would now like to pay back our incredible Charlbury welcome by serving as one of your town councillors. My aim in that role would be to ask your opinions and deliver what you want.
