Im a carer with a genuine 'calling' to care for the elderly. After a year of live-in care in London, I'm now returning to the countryside and looking to work as a carer / companion in Charlbury or surrounds.

Discreet, dedicated, and with excellent top-tier references, I offer high-quality, compassionate care ideally in a setting where we can create a mutually beneficial living arrangement.

My credentials and caring experience within the UK ensure I am fully equipped to make a positive impact in any home.

Let's make life easier, together.
